Burglars effected entrance into the store of F. Buchschmidt at Middlebrook Sunday night and took between eight and ten dollars in change out of the money drawer. The next problem will be agreeing on a site.

The following is taken from the Redmondville items in the last issue of the Centerville Outlook: "An automobile with four passengers came down from Flat River the first Sunday looking after the mineral land on this creek. Last Saturday eve the same car came again, stayed over night and left two men who are very busy prospecting and taking options on the land. They want to option and drill 5,000 acres here in his vicinity and if it proves satisfactory they will purchase the land."

Geo. B. Campbell, a son of the late H. N. Campbell, for many years a resident of Marble Creek, in this county, was an Ironton visitor Saturday. The family left here for Texas fifteen years ago. The father, the young man informed us, has been dead about seven years. G. B. is general manager of the Moscow, Camden & St. Augustine railroad, with headquarters at Camden, Texas. His five brothers are all engaged in railroad work. His mother lives with a couple of her sons in Paris, Texas. Iron county friends will be glad to know that they are all prospering.

The following is reproduced from the Leadwood News in the Bonne Terre Register.  
Sabula, Mo., August 7th.—Rev. Raymond Jinkerson just closed one of the most successful revivals ever held in this community. Twenty-six souls were added to Christ through his influential preaching. The majority of them were men and women of strong character who will be a great blessing, not only to the church, but all the surrounding country. Words cannot express our appreciation to Him who sent Him.

A WELL WISHER FROM SABULA.  
Judge Davis, wife and two daughters, Misses Kate and Sarah, came near having an accident while trying to climb the hill to Arcadia Heights with a Ford car last Sunday afternoon.

Some men driving a buggy in front of them refused to give a part of the road and the car was stopped until the buggy got out of the way, but the stop was made on a steep incline, the brake would not hold and the car rolled off an embankment. A tree kept the car from tumbling over, or the result might have been serious. Judge Davis was slightly hurt and the car suffered a little damage. They were able to return home in the car that afternoon.

How much longer do W. T. McCaskey & Co., of Lansing, Michigan, or the Iron County Electric Light & Power Co., of Ironton, Missouri, suppose that the people of this community are going to tolerate the miserable, rotten, inefficient and abominable electric light service with which they are being afflicted? For many months the service has been inadequate in every way. It has been most abominable. Our people have been most patient under these trying conditions,

hoping for an improvement, but the electric light company, with absolute indifference, is making no effort to better the service. It is time for drastic action. The light company should be compelled to furnish us lights or be put out of business.

From the Farmington News: "Roy Williams is in jail charged with an assault with intent to kill Wm. Boatright on Monday night last Friday afternoon. He was to have had his preliminary hearing yesterday before Justice Good, but asked that it be continued until tomorrow. The report of the affair that we have is that Williams and Arch Hall became intoxicated on last Friday and went down to the lake where they got into trouble with some persons camping there and Roy got a whipping. They went back home and got a shot gun and as they passed Boatright's home they fired at him as he was sitting in the door, and the bullet hit him in the shoulder and thigh. The sheriff was notified and Deputy T. V. Brown went over to Iron Mountain that afternoon and got Williams. Hall had skipped and has not been heard of since."

The following is from last Thursday's Poplar Bluff Citizen-Democrat: "Word was received here this morning of the marriage of Bern Lorenz of the Lorenz Mercantile Company, and Miss Aurelia Galloway, daughter of Mrs. Rebecca Galloway of this city. The nuptials occurred this morning in the parlors of the Hotel Jefferson in St. Louis. The news was conveyed in a letter from Mr. Lorenz to Mayor Robert G. Fells, received this morning. Word of the wedding came as a great surprise to friends of the couple. When Mr. Lorenz went to St. Louis Tuesday night, ostensibly on business, no one suspected that he was to meet his bride and her mother there. Mr. and Mrs. Lorenz will return to Poplar Bluff after a short honeymoon trip. Both bride and groom are very well known and popular in social society circles." Valley friends of the bride extend congratulations and best wishes.

Mr. and Mrs. Frank Shores and two sons, Fred and Paul, arrived in Ironton Thursday evening from Eldon, Iowa, on a visit to Mrs. Shores' parents, Mr. and Mrs. Fred Kindell, Sr., and other relatives. During the trip in an automobile and a portion of the journey was a bit strenuous. This cyclistometer shows that the distance from Eldon to Ironton is 392 miles. The party left Eldon Monday morning and the trip that day was without special incident, arriving at Frankfort, Mo., a small town about midway between Hannibal and Louisiana, and 180 miles from Eldon. That night, however, there came an awful storm and rain, the precipitation in twelve hours being more than seven inches. The roads were badly washed and bridges swept down the streams. It was not until Wednesday morning that the party ventured to proceed on their journey and then took a mile team along to pull them out of the worst places and over the streams. They arrived at Louisiana about noon and there found that all the bridges across a small river that they had to cross was washed away, except one railroad bridge. Finally Mr. Shores concluded he would try and drive the car over the bridge ties if he could secure permission to make the attempt. The agents of the railroad would not give his consent to such a hazardous undertaking but intimated that if the automobilists could not help it. After further consideration the matter Mr. Shores resolved to make the attempt. And bumpety bump, bumpety bump, they went over the bridge ties, finally getting over without mishap. The rest of the road to St. Louis was very muddy and bad and several times they had to be "pulled out" but had no serious mishap. They spent Wednesday night near St. Charles, got into St. Louis about 9 o'clock Tuesday morning and reached Ironton a little before supper time. Under favorable conditions Mr. Shores says the trip could be made in two days.
